

Eric Hans King is a singer-songwriter whose music is a heartfelt blend of rock, folk, and storytelling. Born and raised in the picturesque landscapes of Vermont, Eric found his way to Minnesota in 1998, where the vibrant local music scene and his lifelong passion for songwriting would eventually lead him to create music that resonates with authenticity and emotion.

Eric lives somewhere in Minnesota with his wife, daughter, and their giant St. Bernard. He continues to write and record music, blending his rock influences with a newfound folk sensibility. Whether he's strumming an acoustic guitar or weaving stories through his lyrics, Eric Hans King's music is a testament to resilience, creativity, and the enduring power of love.

Today, his music is inspired by the new folk movement and often described as the perfect backdrop for a "Sunday morning meditation with a warm cup of coffee." Step outside and you might catch him on your lawn—pondering life on other planets with an acoustic guitar in hand. Blink, and he's gone.
